### High End - Universal Fit Pipette Tips

Authorized by DIN EN ISO 13485 Certification: QM-System for Medical Devices,  
harmonized with ISO 9001

Stable, precise and reliable pipetting is of great importance to the experiment result, Kirgen assures precision in test with unique designed tips. Kirgen High End - Universal Fit Pipette Tips are automatically manufactured from 100% medical grade polypropylene with five star high precision mold in 100,000 grade clean room, guarantees precise pipetting and uniformity of tip surface; no additive and release agent are used during production, all tips are DNase/RNase free, non pyrogenic and autoclavable; their unique design of extended length greatly reduces cross contamination

**Unique thin-walled design** increases the flexibility of pipet tips for convenient operation and precision, effectively reduces the risk of RSI (repetitive strain injury).

**Flexible tail vertebrae** enhance sealing between pipette and tips

Für weitere Auskünfte steht Ihnen *Herr Dipl. Ing. Bernhard Schulz* unter 0664/847 13 16  
oder unter [b.schulz@ibl.or.at](mailto:b.schulz@ibl.or.at) gerne zur Verfügung.

---

**Unique conical design, fits most pipette brands** (Eppendorf, Gilson, Biohit, Thermo, Labsystems etc.)

**Clear graduation, easy to observe**

**Uniformity and hydrophobicity of tip surface minimize the liquid residual**

The **gradually pointed design** is perfectly suitable for micro-liquid pipetting

### Extra-long tips

- Greatly reduce the cross contamination between pipettor and tips
- Greatly reduce the cross contamination between samples and pipettor
- Reduce the times to sterilize the pipettes to extend service time
- Reduce time and costs for pipette sterilization
- The extra long design is convenient for pipetting from or into test tubes, culture bottles and volumetric flasks
- Clear and precise graduation, easy for observation

Product No.	Description	packing	Price per bag exkl. 20% MwSt
<b>IBL KG1111</b>	0.5-10ul, clear, graduated, Non-pyrogenic, DNase/RNase free, tip-length: 45mm	1000 tips/bag, 10bags/cs	<b>13,00 €</b>
<b>IBL KG1212</b>	1-200ul, yellow, graduated, Non-pyrogenic, DNase/RNase free, tip-length: 51mm	1000 tips/bag, 10bags/cs	<b>13,00 €</b>
<b>IBL KG1313</b>	100-1000ul, blue, graduated, Non-pyrogenic, DNase/RNase free, tip-length: 102mm	1000 tips/bag, 10bags/cs	<b>16,00 €</b>
